

IPS hosted the Torch Relay for the Chess Olympiad

The 44th Chess Olympiad was organised for the first time in India with the objective of promoting chess and bringing awareness about the game and celebrating it as the 75th Amrit Mahotsav of Independence.

The Chess Olympiad Torch Relay passed through 75 cities across the country, and in this series, the torch reached Indore at Indore Public School, Main Campus on Monday, 4th July 2022. A grand ceremony was organised in the school premises which was graced by the galaxy of intellectuals-

Sri Tulsi Silawat Ji-Ministrer of Water Resources, Madhya Pradesh Government, Dr. Renu Jain-Vice Chancellor, DAVV University, Grand Master Mr. Anurag Mahamal, Mr. Akshat Khampriya - First

International Master from MP, Dr. Sunil Somani-Vice Chancellor of Oriental University, Mr. Rishabh Gupta, CEO of Smart City Indore, and Shri Om Soni, Vice President of the Madhya Pradesh Olympic Federation.

The highlights of the inaugural ceremony, as well as a message from the Hon'ble Prime Minister, Shri Narendra Modi were shown. The torch was handed over to Grand Master Anurag Mahamal and it was presented to the ace players, Ms. Cera Dagaria and Ms. Nityata Jain. The programme ended with a vote of thanks by the eminent educationist and the President, IPS Group of Institutions, Ar. Achal Choudhary Sir.

Let's Eradicate The Periods Taboo

The NSS/IPSSR department of IPS Academy has been running a menstrual hygiene campaign for many years. This time, the programme was held at Vijayaraje Girls Higher School in Ujjain, where the head of the department, Neha Sharma, along with Mr. Sanat Vyas, Principal of the school, educated the girls on how to end period taboos. "Periods are a natural process that

happens to every woman," she said to the female students, "so, why does our society make it a matter of shame, and why can't we talk about it openly?"

Therefore, we in our society are trying to eradicate this taboo and create a stress-free environment for women. Neha Sharma Also shared: When we go to school and talk about periods, only 30% of girls are able to talk about them openly, and the rest of the girls often hesitate. We found that the remaining 70% of girls belong to a society where periods are considered one of the worst days of life, or they are not allowed to talk about it. However, after looking at the various misconceptions, we try to spread awareness and help girls to talk, learn, and be open about it. This step of NSS / IPSSR was appreciated by all, and the students thanked the faculty.

National HR Conclave at IPS Academy

IPS Academy organised a national HR conclave on the theme **'Riboneru Rebuilding - Opportunities and Redefined Notions on its campus in Indore.**

Addressing the HR Conclave, Dr Anurag Batra, editor-in-chief of Business World and the chief guest, said, "To become a successful leader, you have to stay away from the three C's i.e. Complain, Comparison and Criticism".

"Blaming others for their mistakes is not a sign of a good leader. A good leader should always have an open mind. He/she should listen to others, whether the person who speaks has a small or big personality. The mind should always be open to getting new ideas and feedback." Batra said.

Giving tips for becoming a successful HR professional, Batra stated that correct planning and constant follow-up are crucial to success. If a team member is at fault, correct them; if their work is excellent, compliment them.

A panel discussion on the 'future challenges' was held at the conclave. The participants discussed that the young workforce is set to be decreased by 2035 due to the skewed sex ratio in the country. However, the retired employees must work extra time to fill the

gap. Therefore, HR policies will have to be framed according to the needs and convenience of the elderly workforce.

"If the employee is happy, then there will be business growth," said Dharmendra Jain, CFO and HR head at Yash Technologies. The employee should feel that the company will stand by their side in times of crisis.

There should be a culture where an employee can directly talk with the senior managers" said Dharmendra Jain, Chief Finance Officer and HR Head of Yash Technologies. Shastri PKV, Head of Global Delivery and Operations, Hexaware, was the special guest at the HR Conclave.

Mayur Satyavrat of Adani Airport Holdings, HR Anand Dhruv, Associate Director of NTT, Sahil Nair, and Associate Director of KPMG, Dr Ankita Singh, Global Head HR of Signex, Debashish Ghosh, CHRO, Barcadia, and many other personalities were the speakers. The guests were welcomed by placement head Dr. Rajiv Shukla.

At the end of the conclave, the Event Organizing Committee Chairperson, Nihit Jaiswal, expressed his gratitude.

"Ek Bharat Shrestha Bharat" Department of Engineering hosted 33 students from Manipur

As part of the Azadi Ka Amrit Mahotsav-Ek Bharat Shrestha Bharat (AKAM-EBSB) 33 college and school students from Imphal, Manipur made an enriching visit to Indore and surrounding places of Malwa region of M.P. Out of the 33 students, 19 students were from different schools of Imphal and 14 were from MIT, Imphal. The students were accompanied by 2 faculty members. The visit was facilitated by the Union Ministry of Education and the All India Council for Technical Education (AICTE), New Delhi. The team visited various places of Malwa region including Maheshwar, Mandavgarh from June 26 to July 02, 2022. IPSA Institute of Engineering and Science, were the host

institute. Manipur and Madhya Pradesh are paired states under the Ek Bharat Shrestha Bharat scheme. Students explored various places which included Bio CNG Plant of Indore Municipal Corporation, Khajrana Ganes Temple, Dongla Robotic Observatory,

located at zero degree longitude, and Mahakaleshwar temple in Ujjain. On the concluding day, the students participated in the joint cultural programmes, showcasing the traditions and culture of the two states. During their visits, students enjoyed and tasted different cuisines of the host state at the world famous Sarafa bazaar & Chowpatty of Indore. The visiting Manipuri team was much impressed and felt enriched by the historical places, traditions, culture and local cuisines. They also learned about the heritage. Similarly, students from IPSA came to know about different Manipuri traditions.

Comedy Act Performed by Students of SOPA on the Auspicious Festival of Vasant Panchami at IPSA

On February 2nd, 2022, to celebrate the auspicious occasion of Vasant Panchami School of Performing Arts organised a comedy act/play. Management members along with the Chief Guest Mr. Sushil Johri attended this event. Sushil Johri is a movie actor who has worked in many Bollywood movies as well as a few Telugu movies.

He is also an anchor, writer, and director. This event took place at the premium auditorium. The event started with Saraswathi Vandana, which was performed by the students of the vocal department of the school of performing arts. Then the director of the play, Mr. Chaitanya Shah, gave a small description of the play named "BHAGAVADJJUKAM", written by Bodhayana.

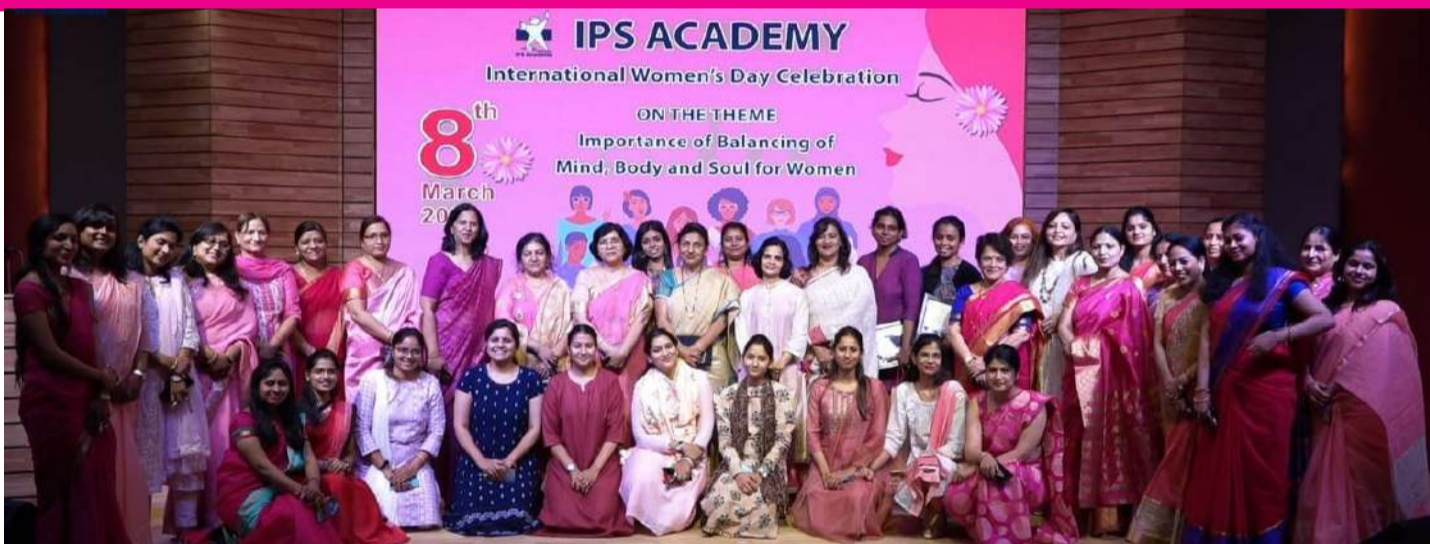

This play was written in the 7th century and was later translated into Hindi by Mr. Nemi Chandra Jain (Padma Shri awarded Indian poet). The play starts with the discussion between the guru (master) and his student, whose attention is drawn towards a woman who was singing in the garden near them.

The woman gets bitten by a snake and dies in the arms of her friend. The play ended with character introductions (Paatr Parichay). After the play, the President of IPS Academy, Mr. Achal K. Choudhary said a few words about the play and expressed his gratitude towards the drama team. The event ended with a small speech by the Chief Guest, Mr. Sushil Johri, where he talked about his experience in theatre and industry.

Corona and Volunteer Award Ceremony for the IPS family by NSS/IPSSR Department

All the corona warriors of the IPS family were awarded for going above and beyond duty to provide incredible services to people during the COVID-19 Lockdown Period 2020, under the guidance of HOD of NSS/IPSSR Neha Sharma, by providing food and transport services to the people.

H.O.D Neha Sharma also shared, "Our Corona warriors of IPS Academy, without caring about their lives, handled the situation and social balance in those difficult situations when there was a need for humanity in human beings, be it our drivers, conductor guards, or our student volunteers, all at their own level, made their valuable contribution to take out the country, society, and the world from the critical circumstances." We all also saw the period when all the big industries started shutting down due to the lockdown and probably the biggest migration of mankind.

At that time, IPS arranged buses as well as drivers, conductors, and many helping hands came forwards to help in every possible way, whether it was to transport the passers-by from one place to another or to arrange food, water, and medicine. Everyone worked shoulder to shoulder. " Not only students, but also drivers, mess staff, and other IPS Academy faculties, stepped forward to combat the situation during the pandemic. The students of performing arts at IPS Academy added some stars to this volunteer award ceremony by presenting a wonderful dance. President Ar. Achal Chaudhary, vice president Mr. Yogendra Jain, and members of management, along with H.O.D Neha Sharma, were the guests of honour for the event. This ceremony was not only for felicitation but also to encourage people to show kind behaviour in their nature.

Cyber Security: A need of today!

A session with Dr. Varun Kapoor conducted at S.O.C.Dept.

On May 10th, 2022, the School of Computers and IPSA conducted a session on cyber security. The Chief Guest and Speaker was Dr. Varun Kapoor, a well-known individual. He has held a variety of positions within the police service, including Superintendent of Police (SP), Deputy Inspector General of Police (DIG), Additional Director General of Police (ADG), and Inspector General of Police (IGP), and via those positions, he has established his own legacy. Being the only officer in all of Asia to receive a PhD in cyber security, Dr. Varun shared in detail with students about the following topics: how important is cyber security? What is cyber crime? What is cyber stalking? and more. He made the students aware of various cybercrime cases and also shared how

to prevent crimes from happening. The session was insightful and helped students learn greatly about how to use social media responsibly. Towards the end, Dr. Varun was given a vote of thanks and a token of love by the H.O.D. S.O.C. Dr. Manish Pundlik for enlightening the students through a wonderful session.

Sewing training organized by NSS Department to make women self-reliant.

IPS Academy is always ready for the welfare of its class IV employees. This time, the academy's NSS Dept. started a sewing training programme in collaboration with "Jan Shikshan Sansthan" to make women self-reliant. The main objective of this training has been to make women skilled in sewing and related work. Sewing-weaving is such an art, through which any woman can earn money sitting at home and can provide education and facilities for her children. Training can be taken by any woman. The interval between this training is five months, in which training is given by the trainer. At the time of training, 20 women in a batch get trained.

The age of tailoring training by the academy is a minimum of 15 years and a maximum of 45 years. Women do not need any educational qualification. Illiterate, neo-literate, rudimentary, and 8th and 12th grade dropout women can also join.

"Building Construction" workshop at School of Architecture.

6 days workshop hosted by famous Model Maker **VIKAS SHIMPI**

A workshop was organized at the School of Architecture in which the students learned the skills of construction by Vikas Shimpi, a well-known model maker from Nashik. The workshop was divided into two halves with 3-3 days for different sections. The first three days of the workshop were related to brick model making, in which students learned how to handle small scale bricks. In this workshop, brick models like pointed section, strip foundation, semicircular section were made.

The horseshoe section was also built with the help of bricks. After that, the RCC workshop was held for the next three days, in which the students participated in real-time. They constructed an RCC frame structure with scale, starting with an RCC foundation, then columns, beams and slabs were inserted.

National Tourism Day celebrated at SOTT

On the occasion of National Tourism day, which was celebrated on 25th January 2022 at SOTT- School of Travel and Tourism department, Chief guest Mr. Moinak Nandi, Training Manager of Sayaji Hotel, Indore, visited the campus. The chief guest highlighted the prospect of the Hospitality Industry, Grooming standards, Soft skills, Dressing Sense. A detailed history of the brand Sayaji, it's inception and mission and vision.

Cultural programmes were performed by the students to show the significance and essence of National Tourism day was also highlighted. The main focus of celebrating India National Tourism Day is to educate people about the benefits of traveling and the importance of tourism. India is a tourist's paradise and this trade plays an important role in the economy of the country. Most people are unaware of the fact that India dedicates a day to tourism. However, it should come as no surprise because India is a treasure trove of exquisite mountains, forests, and sea beaches. Every year, 25th January is celebrated as the India National Tourism Day, an incredible way to spread awareness about the importance of traveling & protecting nature.

Effect of Covid-19 on the Media Industry

COVID – 19 has changed the World we live in, it has hit us like a thunderstorm. All the industries were affected by this deadly virus, whether it was IT, customer service, manufacturing or others. No one was spared.

Mass communication was also such an industry that didn't remain untouched by COVID. It brought lot of challenges to this industry such as:

1. News anchors were reporting news from their homes with the help of the devices available to them.
2. Cinemas were shutdown.
3. Movies production stopped which affected the employment of the crew.
4. Journalists had to go out to report in the midst of this pandemic.

But even in this hard time, mass communication played a vital role in connecting everyone together and keeping us all updated with the latest news or trends. Means such as newspaper, news channels, radio, social media and many more took responsibility to share information and keep us entertained. As this pandemic has taken toll on the world, there was a major shift in the workforce.

Work from home was introduced in almost all sectors of the industry. But it was a bit of challenge for mass communication as it is a wide industry. During the pandemic, media suffered major losses. For E.g. Due to lack of advertisement and sponsors print media suffered in

their revenues. Many employees were stripped off from their jobs. As lockdown was eased and people's life was getting back on the track, companies and market resumed their businesses. Since mass communication is a vast industry, it has to cope up with many challenges to get back on the track. Although after facing such grave situation, mass communication has played a wide role in gathering information and presenting them to the general audience.

It is fast paced growing industry. It has many job opportunities and job roles. This industry requires a lot of personnel for its various fields. Even though COVID did affect the industry, mass communication didn't shut down completely. There were various streams of this industry which were operational such as print media and electronic media. Another boom we saw in this industry during the lockdown period was mushrooming of the contents on different OTT(over the top) platforms. Due to COVID norms and isolation, people have increased at home digital consumption, thus creating a demand for OTT platform and streaming services.

Mass communication acts as the bridge between information and society. This pandemic had taught us the importance of being creative and that imagination stories and ideas can never be hindered even if they are hit by a pandemic. Media came out even more stronger means of communication.

SAVE A STREET LIFE

Are you willing to bring a pet dog in your home? Which one? A smart husky or a cute Shih-tzu?

Well, I believe that adopting a street or rescued dog is far more attractive than purchasing one. Of course, husky, labrador, Shih-tzu all are adorable and but there's a terrible dark side of this industry which has always pushed my mind to adopt a needy stray instead of purchasing one. I don't know from where to start, Let me tell you, the dogs that are sold in pet stores are not born naturally, they are born from abused, caged mothers living their whole life in small cages in unbearable conditions forced to breed over and over until their bodies shut completely down due to exhaustion. They are then killed and discarded of like any other piece of garbage, only to be replaced by yet another unlucky rape victim. There are rapes or breeding stands because of which dogs are being raped by the breeders.

Here are some reasons why you should adopt a street dog other animal instead of purchasing :

1) FIRST AND MOST MAJOR REASON FOR ADOPTING A STREET OR RESCUED

ANIMALS IS YOU ARE SAVING A LIFE :-

You might be getting a pet dog for your own happiness , but for a stray dog, you become their whole world by giving them a healthy space to live in.

2) DOGS ARE NOT ABOUT STATUS :-

People often do not shelter stray dogs because the way they look might bring disgrace to them. A good person, no matter how he may look, is always a good person , This can also be applied to animals .

3) THEY ARE HEALTHIER THEN OTHER BRED DOGS :-

Stray dogs are very often mixed within breeds and aren't pure-bred. They have a lower risk of obtaining purebred genetics that lead to inherited diseases, they are healthier than other dogs. Indian Street dogs spend their entire life on the busy roads of India, Rash driving of humans, starvation, becomes the reason of their death.

Remember, BUYING A BREED DOG IS TOTALLY EQUAL TO SUPPORTING ANIMAL

TRAFFIC

ADOPT. DON'T SHOP.

समय लेते आना

कुछ बातें करनी है तुमसे,
एक शाम फुर्सत से आना,
मैं अपने खयाल लाऊंगी,
तुम समय लेते आना।
हो सके तो फिर न जाने के लिए
आना,
हो सके तो फिर हर शब् साथ
बिताने के लिए आना।
सुना है, कुछ उदास सा है दिल

आपका, आ रहे हो तो, दिल
लगाने के लिए आना, बहुत रोयी
है आँखें आपको,
अब मुस्कुराने के लिए आना।
यूँ किसलिए फिरते हो मुसाफिरों
की तरह तुम, अब की बार, रह
जाने के लिए आना,
अब की बार, थम जाने के लिए
आना।

बहुत कुछ है कहना तुमसे,
बहुत कुछ बताना है,
तुम आ रहे तो अगर एक शाम
फुर्सत से आना,
मैं बातें ले आऊंगी अपनी,
तुम समय लेते आना।

Poems

ज़िन्दगी

रखना है खुदको भी खुश,
रखना है सभी को भी खुश ,
करना है खुदके भी सारे काम ,
करना है सभी के भी सारे काम,
मनाना खुदको भी है जब कोई मनाने वाला
ना हो,
मनाना उन्हे भी है जो नाराज है मुझसे,
सिखना मुझे भी है जो मुझे अच्छ लगता है,
सिखाना उन्हे भी है जिन्हे कुछ नहीं आता है,
ओर फिर एसेहि रखते , करते, मनाते
सिखते , सिखाते गुजर जाती है ज़िन्दगी
मेरी,
गुजर जाती है ज़िन्दगी मेरी ||

तन्हा लमहों में...

तन्हा लमहों में मैंने,
सिर्फ तुझको ही पाया है,
ना रूह, तू ना ही मेरा कोई साया है,
आशाओं से लिपटी,
कैसी यह तू काया है,
जब तड़पी में दर्द से,
आंसू तेरा भी तो आया है,
तू देव है या दूत है,
तू किस जन्नत से आया है,
तेरे ही आंचल मे मैंने,
अपना सारा जग बसाया है।

MEMORABLE SNAPSHOTS

Photography is the art of seizing moments, places, and people. In today's world, with the help of a lot of technologies, the art of capturing gets easier day by day, but the quality of skill is diminishing as it gets more comfortable to capture. Why not try something different? Initially, you may not get good pictures, but as time goes by, you'll evolve yourself. I'm not talking about professional photography. Photography can be a great hobby too. Most of us have hobbies like painting, dancing, singing, reading etc. Why not try something unique?

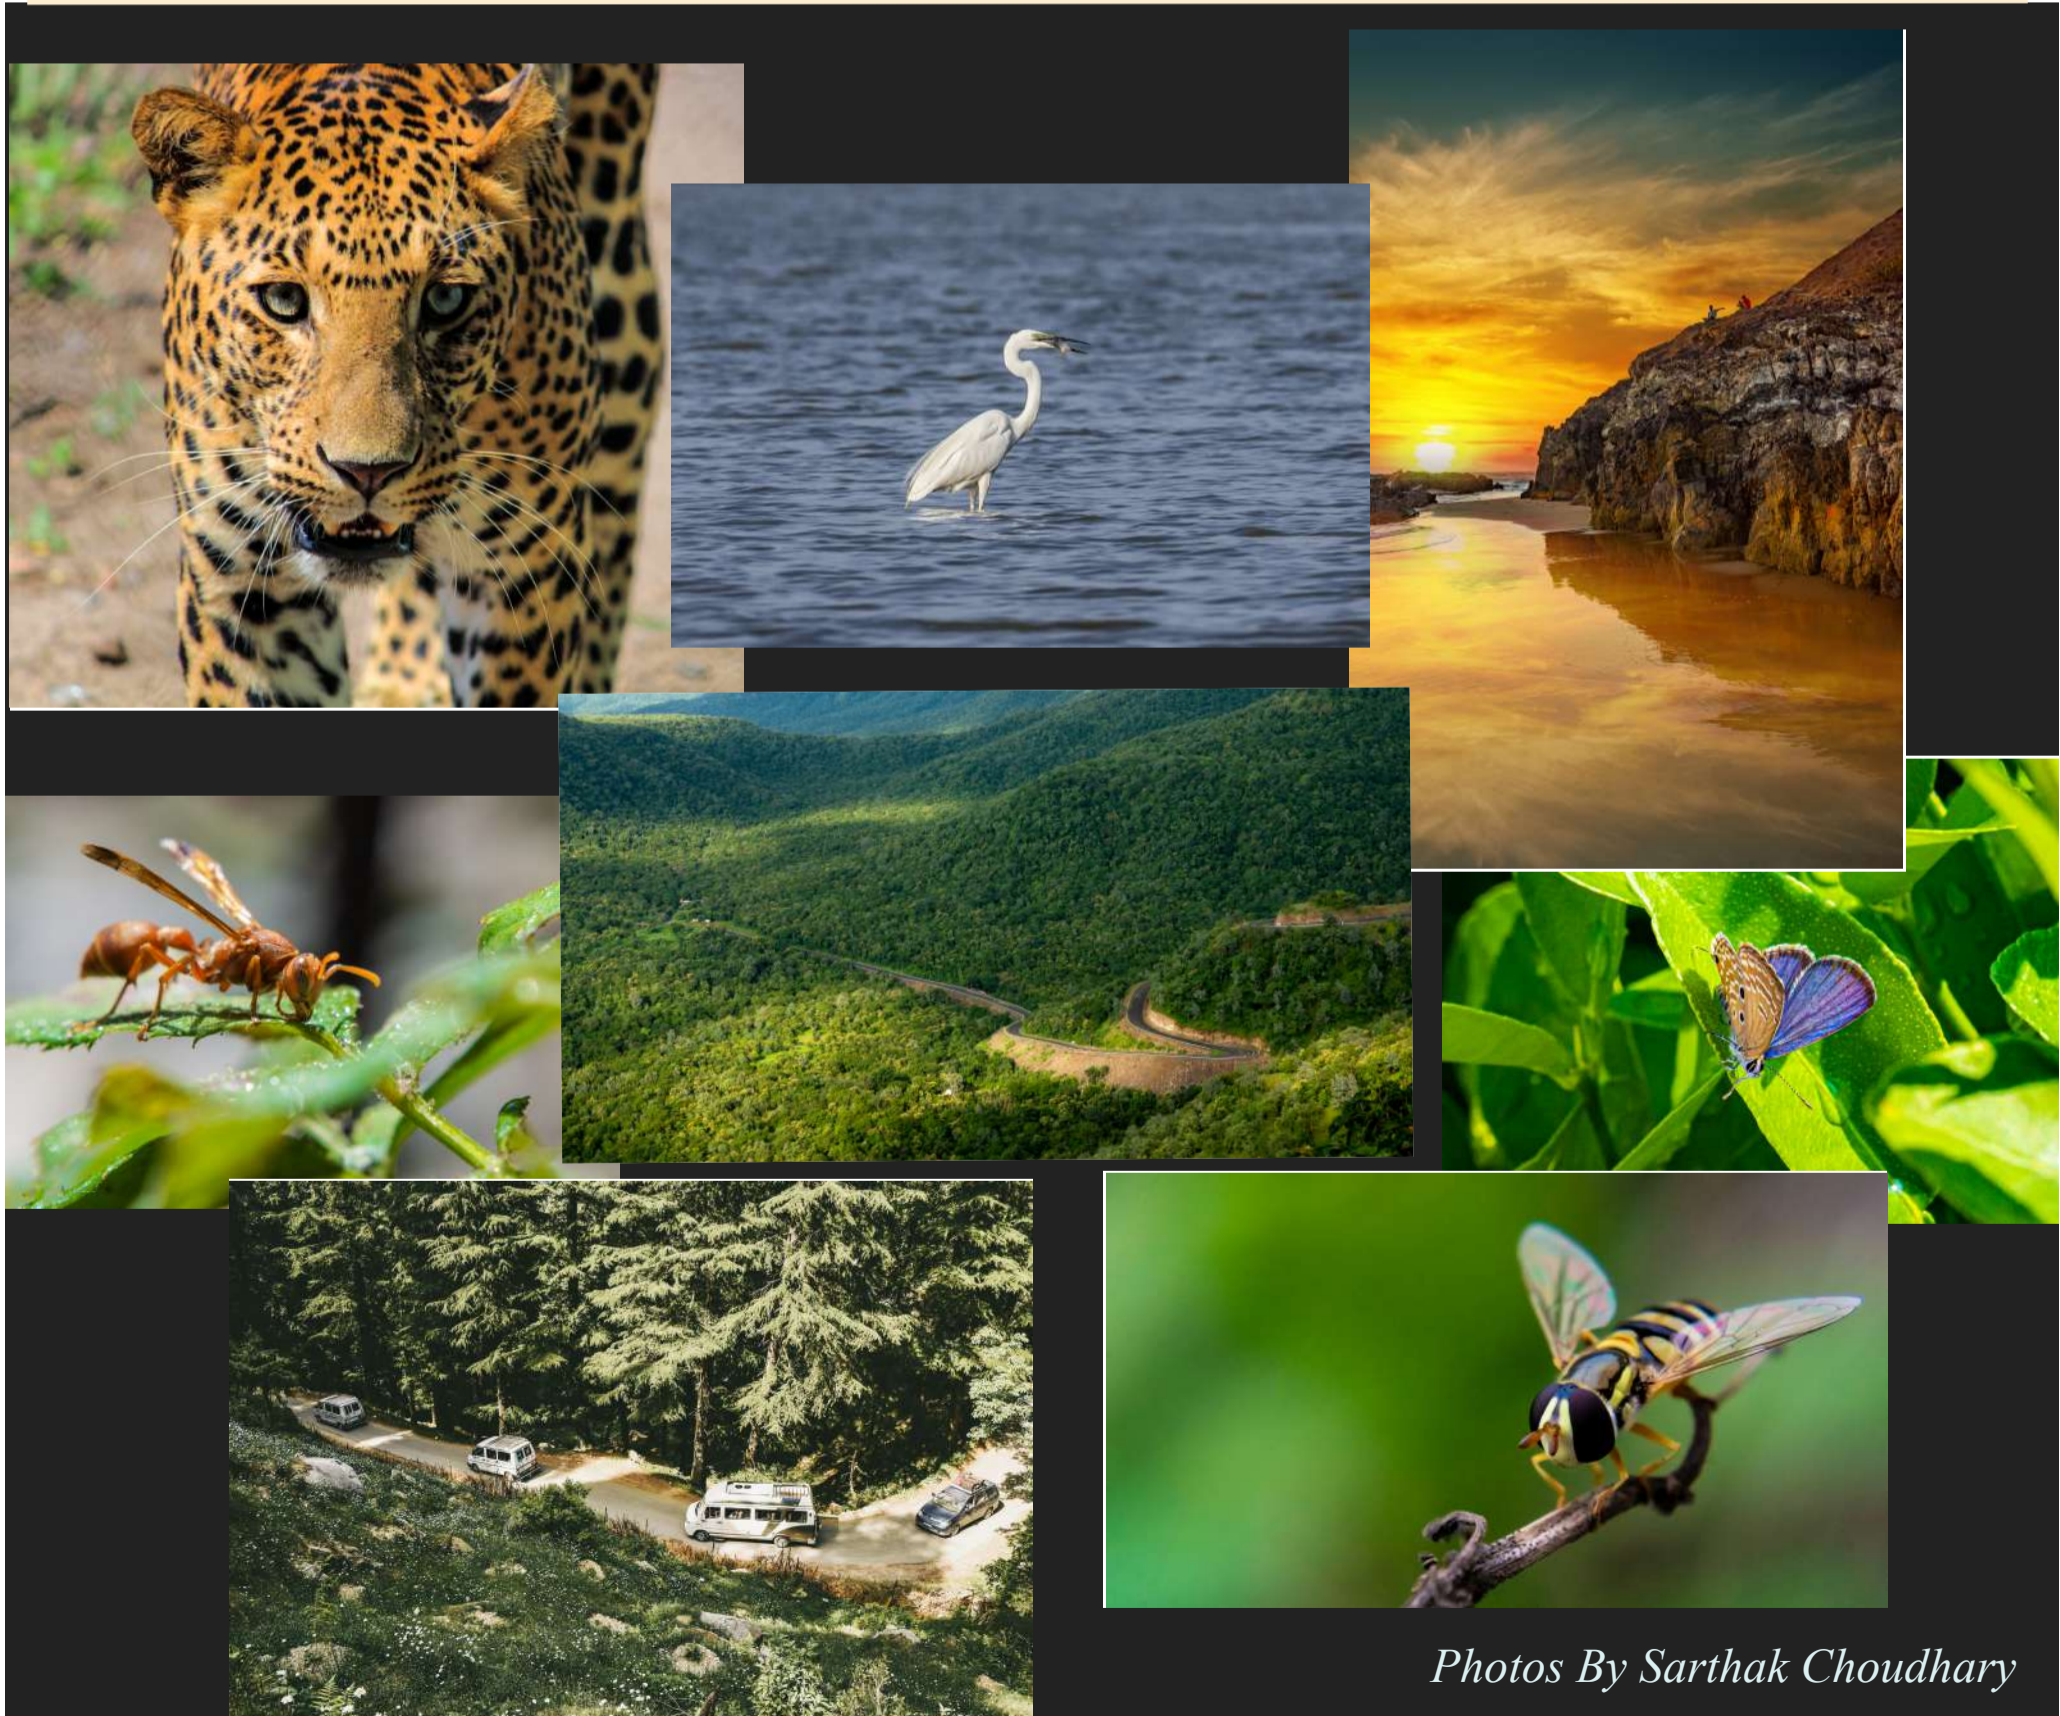

Neither the device matters, nor the person you're clicking for matters. But it's the person behind the camera that matters the most. Photography needs imagination, creativity & some skills. It also involves science. Lights are what a photograph is made of and don't we learn about lights in physics?

Visit new places.

*And, remember that you can revisit a place
but you can never revisit a moment.*
